REPORT OF ANIMALS USED BY OR UNDER CONTROL OF RESEARCH FACILITY (Attach additional sheets if necessary or use APHIS FORM 7023A)

A. Animals Covered By The Animal Welfare Regulations	B. Number of animals being bred, conditioned, or held for use in teaching, testing, experiments, research, or surgery but not yet used for such purposes.	C. Number of animals upon which teaching, research, experiments, or tests were conducted involving no pain, distress, or use of pain-relieving drugs.	D. Number of animals upon which experiments, teaching, research, surgery, or tests were conducted involving accompanying pain or distress to the animals and for which appropriate anesthetic, analgesic, or tranquilizing drugs were used.	E. Number of animals upon which teaching, experiments, research, surgery or tests were conducted involving accompanying pain or distress to the animals and for which the use of appropriate anesthetic, analgesic, or tranquilizing drugs would have adversely affected the procedures, results, or interpretation of the teaching, research, experiments, surgery, or tests. (An explanation of the procedures producing pain or distress in these animals and the reasons such drugs were not used must be attached to this report)	F. TOTAL NO. OF ANIMALS (Cols. C + D + E)
4. Dogs	32	374	24	174	572
5. Cats	0	0	0	0	0
6. Guinea Pigs	297	395	791	238	1424
7. Hamsters	7	235	543	136	914
8. Rabbits	0	28	27	45	100
9. Non-Human Primates	8	59	55	0	114
10. Sheep	0	0	0	0	0
11. Pigs	0	0	0	0	0
12. Other Farm Animals	0	0	0	0	0
13. Other Animals	0	0	0	0	0

ASSURANCE STATEMENTS

- Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- Each principal investigator has considered alternatives to painful procedures.
- This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all the exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

Appendix 1

USDA ANNUAL REPORT (2006-2007)

Registration #: 22-R-0138

Total Number of Animals used under USDA Category E

During the reporting period, the Institutional Animal Care and Use Committees (IACUC), of Johnson & Johnson Pharmaceutical Research & Development, L.L.C., approved the use of animals in Category E as follows:

<u>SPECIES</u>	<u>Category E usage</u>	<u>PROCEDURE/JUSTIFICATION</u>
Dogs	174	studies. Analgesics cannot be administered as they may potentially interfere with the goals/aims of the intended studies, primarily study of the [REDACTED] produced by [REDACTED] of dosed investigational agents. These studies are performed in accord with [REDACTED]
Rabbits	45	Animals are injected with [REDACTED] agents as a model for [REDACTED] treatment. Administration of analgesics will adversely affect the ability to analyze & evaluate these effects. Interaction between the analgesic and the [REDACTED] will occur.
Guinea Pigs	238	Animals are injected with inflammatory mediators that cause bronchconstriction, which is distressful. Use of analgesics inhibits cellular infiltration process and interferes with this model.
Hamsters	62	Animals are injected with [REDACTED] that cause [REDACTED] which is distressful. Use of analgesics [REDACTED] and interferes with this model.
Hamsters	8	This surgery protocol is performed under anesthesia. Analgesics are given. Eight animals died from [REDACTED]
Hamsters	64	In this protocol [REDACTED] is induced in the hamster model. During the development of this model, some animals are found

Hamsters	2	dead or euthanized; these animals were put under "E" category. Animals in this protocol are [REDACTED] [REDACTED] then euthanized at end of study for tissue collection. Two animals identified under E category were found dead.
